P.O. Box 402591 Hesperia, Ca 92340

Thank you for your consideration. I am privileged to be considered for fellowship, so I will do my best to tell you a little bit about me! First off, this will not read like a bio, I am hoping it is informative anyway😊!

My given name Akilah Hart, but I simply like to be called Lady Hart. My husband & I founded Spirit Filled Family Church International in 2004 and we have been the senior pastor's ever since. Although I am an ordained Pastor & a Prophet, titles just never really meant all that much to me so feel free to address me with the title that Holy Spirit leads you to.

Most of my degrees are in business & advanced technology but I do hold degrees in theology and I am an ordained minister & prophet. Being a pastor has taught me that my degrees do not really mean much when it comes to God's work... but hey, whatever floats your boat!

I have been married to one man since 1994, Apostle Michael E. Hart. Together we live, work, play, & pray! We have three beautiful daughters Nancy, Kaiyah, Rosaleyn. In total, we have raised seven children. All praises be to God because we are still enjoying each other's presence!

I am going to list some things for because this seems like the next logical step. You already know about **Spirit Filled Family Church**, beyond that I have founded 2 other nonprofit organizations;

1) Spirit Filled International Alliance

To facilitate the Apostolic Mandate that God has charged my husband and I with

2) Family to Family Community Development Corporation

To extend our reach and partnership beyond the four walls of the church through community programs

I have also founded three businesses

1) iThrive365 Radio

Where we declare the message and music of Jesus Christ via FM & streaming radio

2) Infinite Auto Center

A Concierge Service Dealership

3) and Last but not least Inspire Champion Life LLC

Through which I address the core of ministry that God has specifically called me to.

Through Inspire Champion Life, **I help women married to the pastor** find definition in their widely undefined position as a “First Lady”. I teach how to lead using your unique & inherent character set enabling one to move from the position objectification to personification! BUT WAIT! God has called me to do more **I help men & women of faith break the generational curse of financial poverty** through financial education & entrepreneurship using sound personal business models that are individually developed around one’s own unique skill & passions.

I understand that God has called me to this and it is not by chance that you are even reading my Bio.

I have so much more to share... It will have to wait until we are able to fellowship. With that being said... I declare the blessings of God over your life. & I hope my bio help you gain some insight about me. Until we meet...

May God bless you and keep you

Lady Hart
